This investment of \$2,862,025 and strategic partnership, coupled with the ongoing institutional support and interest from senior miners, is a strong endorsement that clearly demonstrates the significant near-term discovery potential at our 100% controlled properties. With less than 45M shares issued and outstanding, no debt, and a strong cash position, we are well positioned to move forward with the inaugural drilling program at our newly discovered high-grade gold-silver discovery at the Surebet Zone in the prolific Golden Triangle.”
