## **About Goliath**

Goliath Resources Limited is a project generator of precious metals projects focused in the prolific Golden Triangle and surrounding area of northwestern British Columbia. It controls 100% four highly prospective properties that include Bingo, Copperhead, Golddigger and Lucky Strike covering over 44,000 hectares. All four properties have brand new discoveries that all have returned anomalous gold, silver and/or copper in grab and channel samples from exposed bedrock at surface. These new discoveries occurred in an area of glacial recession and snowpack melting in a world class geological setting where world class deposits have been found.

The newly discovered mineralized Lorne Creek Au-Cu-Mo Porphyry System at the Lucky Strike Property will be the main focus in 2019 with its inaugural drill program planned this exploration season.
